Silver Edition

Single computer with Tally.ERP 9 is adequate for your operations, the Silver Edition is what you need. With Silver you can manage as many companies (business entities) and personal books of accounts as you need.

Features

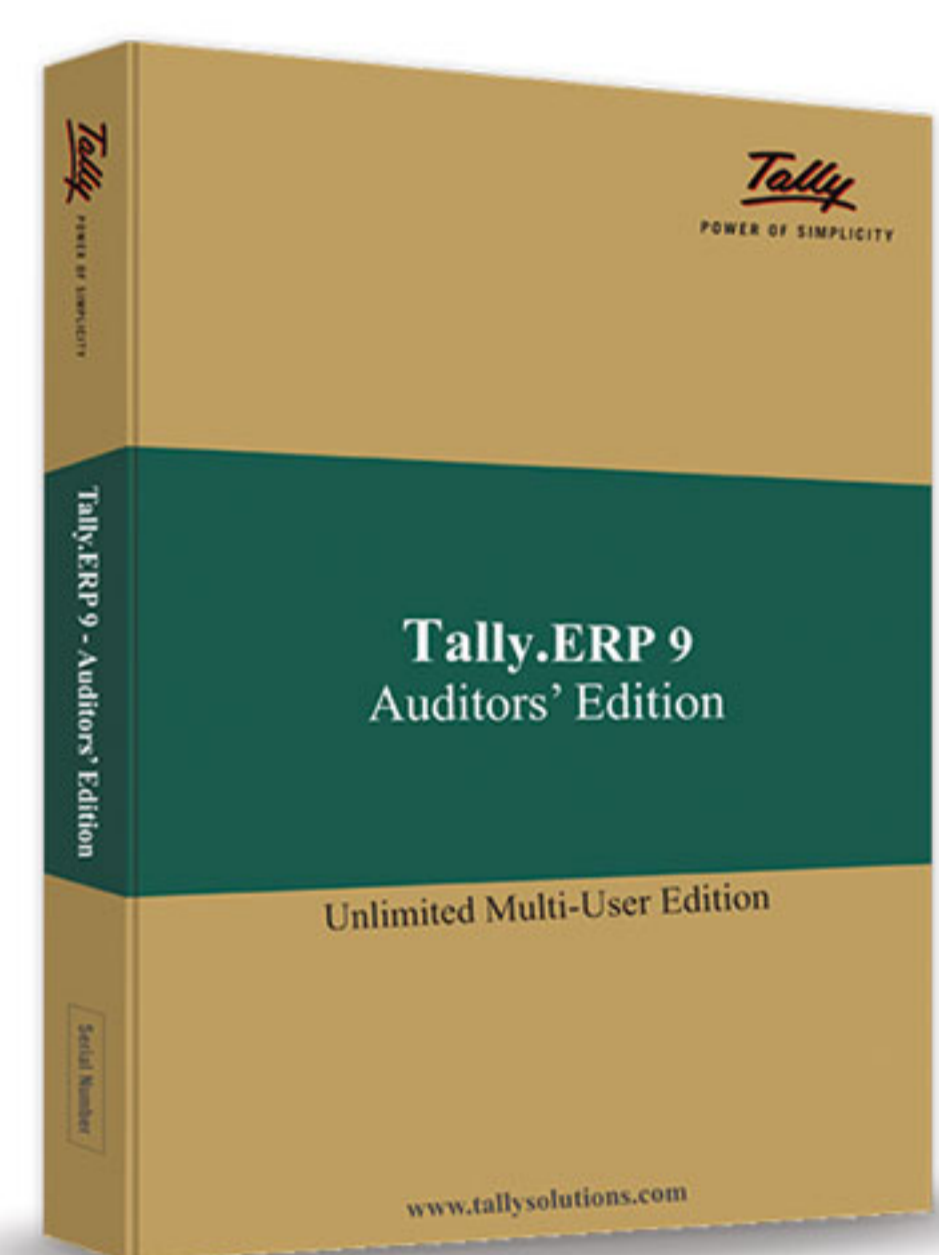

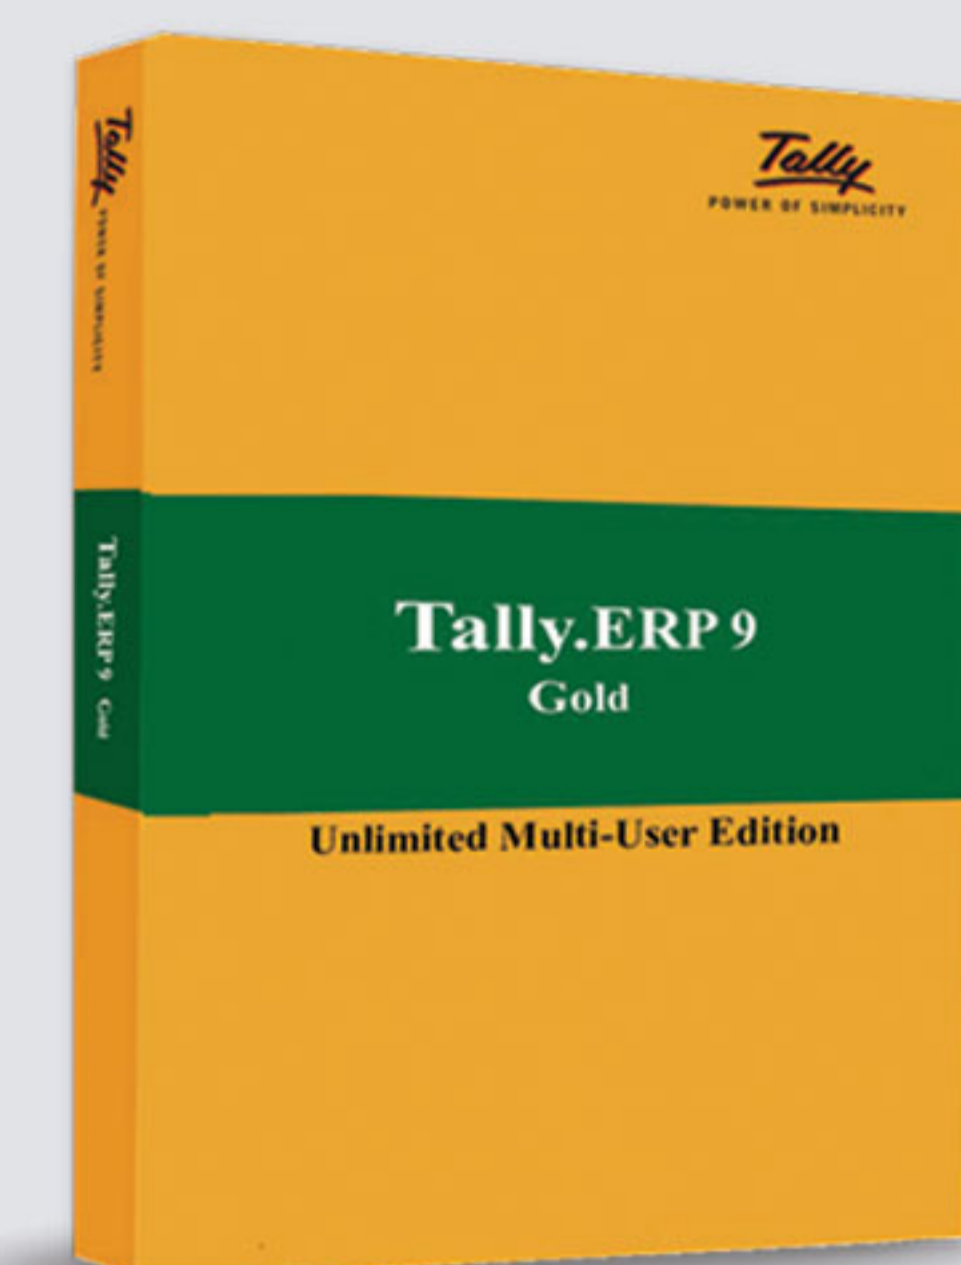

- Remote user
- Access from Tally's auditors additions
- Ease of access from home and offices
- Low cost

Gold Edition

Using more than one computer needs to have access to Tally.ERP 9, a Gold Edition is what you need. Any number of users can simultaneously have read and write access.

Features

- Remote access
- 10 Tally.NET identities
- Access from Tally's auditors additions
- Easy to migrate to Gold from Silver

Auditor Edition

Tally.ERP 9 Auditors Edition has evolved into a highly sophisticated tool for business operations management for both CA's and their clients. It is useful to streamline processes so as to save time, efforts and resources.

Features

- Ease verification and collation of data
- Simplify the audit process with 3-dimensional micro-analysis
- Audit working papers
- Repeated transactions
- Relative size factor (RSF)

Tally Server 9

Tally Server 9, a new product which can be installed in the server machine and run as a service, has been developed by Tally to provide an unparalleled usability experience for secure and concurrent data access in your multi user environment.

Features

- More than 100 client machines can access data at a time.
- Multiple users can concurrently read (e.g. view reports) and write (e.g. record transactions) data
- Administrators can have control over who accesses the data on the server; permissions provided will be user-specific.

Rental Edition

Tally.ERP 9 is now available in a rental model. Simply put, you can now pay per quarter or even per month of use. With over 90% (estimated) businesses in India using Tally.ERP 9 (and earlier versions), a temporary requirement of Tally.ERP 9 might come up.

Features

- Save money
- Short term use
- Supplier of PC's on rent
- PC manufacturer or dealer

Busy

With BUSY it is easy to manage your accounting and get your business rock and roll. Busy is easy to use accounting software for SOHO, micro, small and medium businesses

Busy software available in :

- Basic Edition
- Standard Edition
- Enterprise Edition

Features

- Financial Accounting (Multi-Currency)
- Inventory Management (Multi-location)
- Production / Bill of Material
- Sales / Purchase Quotations

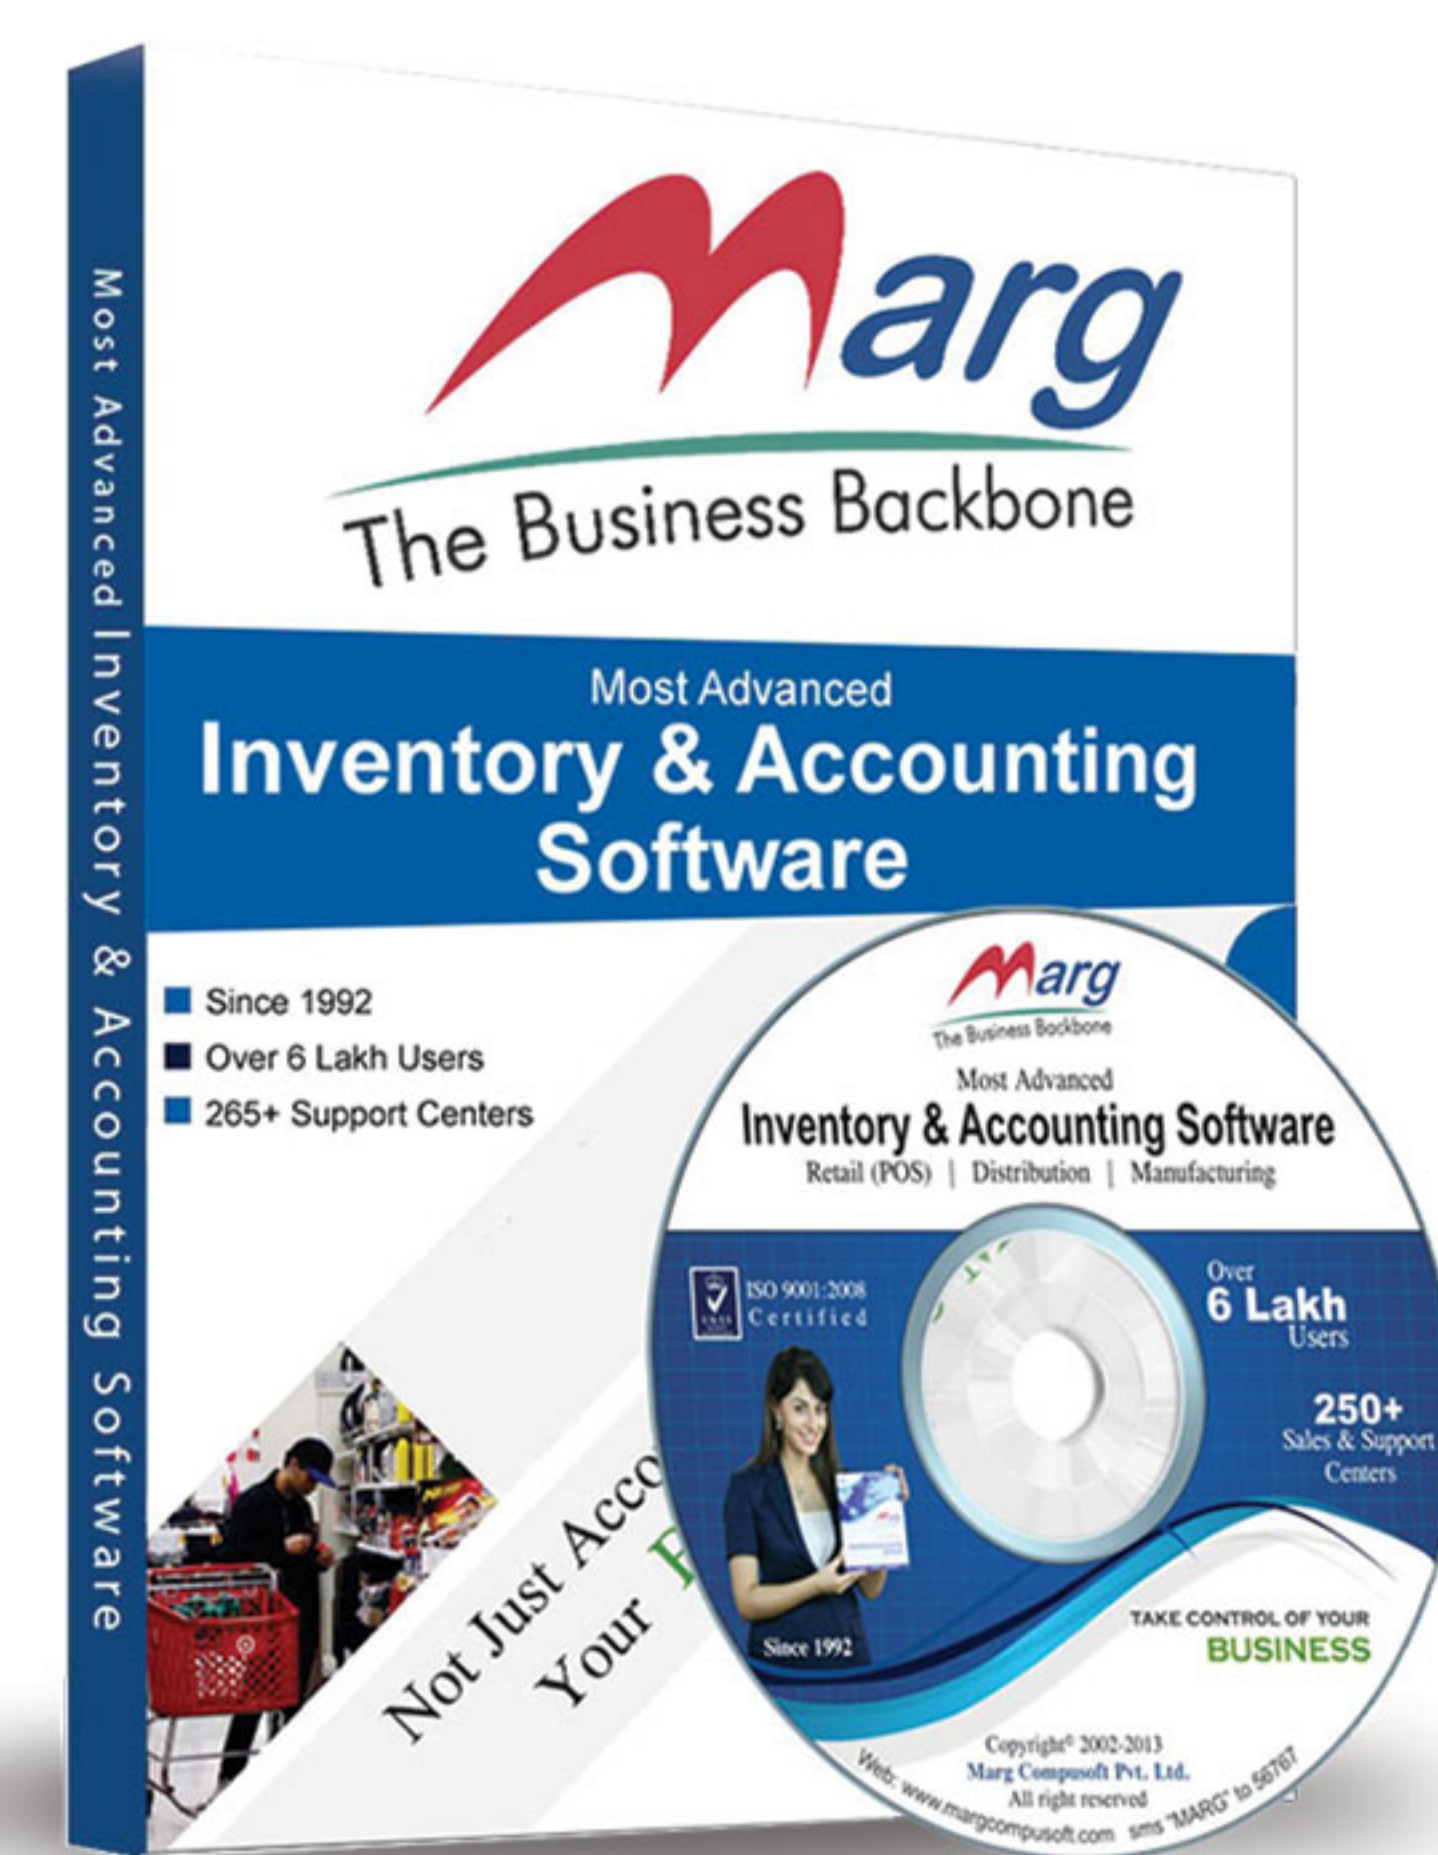

Marg

Marg software is the only real accounting & inventory software which gives you 100% control on your business.

In Marg, billing system is very much advanced yet easy to use. All types of vat forms are available according to state wise and you can file e- return online

Features

- "N" no. of payment receipt entries by one single entry
- Strong control on customer's credit limit
- VAT computation report in advanced form
- Sales Tax declaration forms reminders
- Checking of each entry, before impacting ledgers & main accounts
- Self customizable narrations
- Multiple dated expense entries by one single voucher entry
- Error checking feature with re-posting of data
